## PROFESSIONAL SUMMARY

---

Results-driven Software Engineer with 4+ years of expertise in full-stack web development, specializing in enterprise solutions and scalable applications. Proven ability to architect robust systems, optimize database performance, and mentor development teams. Demonstrated success in reducing processing times, enhancing user engagement, and delivering high-availability platforms across diverse industries.

## CORE COMPETENCIES

---

**Programming Languages:** C#, JavaScript, Java, HTML5, CSS3

**Frameworks:** ASP.NET Core, ASP.NET MVC, .NET MAUI, Web API, jQuery, Bootstrap

**Database Technologies:** Microsoft SQL Server, MySQL, Firebase Realtime Database

**Development Tools:** Visual Studio, DevExpress Controls, Telerik UI Components

**Version Control & Testing:** Git, GitHub, Unit Testing, Test-Driven Development (TDD)

**Specialized Skills:** Performance Tuning, Cross-Platform Mobile Development, System Architecture

## PROFESSIONAL EXPERIENCE

---

**Senior .NET Developer**

Ziac Softwares, Bangalore

July 2022 – September 2025

### WheelzOnlineNDS - Enterprise Document Management Solution

- Architected comprehensive Document Management Solution serving 500+ automotive industry users
- Built modular backend infrastructure reducing document processing bottlenecks by 40%
- Engineered administration panels, inventory tracking, vehicle monitoring, and workshop modules
- Executed database optimization strategies achieving 30% faster query execution times
- Facilitated stakeholder meetings and requirement gathering sessions for feature customization
- **Tech Stack:** C#, ASP.NET MVC, Microsoft SQL Server, Bootstrap, DevExpress

### Firstbase - Mobile Dating Application Platform

- Refactored cross-platform mobile application addressing critical performance issues
- Redesigned matching algorithms accelerating compatibility processing by 25%
- Deployed Firebase Analytics integration boosting user interaction metrics by 15%
- Coordinated UI/UX overhaul across Android and iOS ensuring consistent user experience
- **Tech Stack:** C#, ASP.NET Core, .NET MAUI, Microsoft SQL Server, Telerik

### AquaSTP - Industrial Water Treatment Management Platform

- Created comprehensive facility management application for equipment monitoring and inventory control
- Built real-time incident tracking capabilities enhancing operational compliance and efficiency
- Established automated reporting dashboard streamlining executive decision-making processes
- Authored comprehensive technical documentation and conducted staff training workshops
- **Tech Stack:** C#, ASP.NET MVC, Microsoft SQL Server, Bootstrap, DevExpress

### Tudubuddy - Educational Technology Platform

- Built automated examination system featuring dynamic question generation and instant scoring
- Established push notification infrastructure achieving 90% message delivery success rate
- Maintained production server environment sustaining 99.9% availability during peak traffic periods
- Launched targeted email marketing campaigns generating 20% increase in user acquisition
- **Tech Stack:** C#, ASP.NET MVC, Microsoft SQL Server, Bootstrap

**Technical Instructor and Software Developer**  
**TOPS Technologies, Surat**

**June 2019 – August 2020**

- Developed comprehensive curriculum bridging theoretical concepts with practical industry applications
- Trained 100+ aspiring developers in modern web technologies achieving exceptional placement rates
- Collaborated with product teams to enhance internal evaluation tools and learning management systems
- Conducted market research to align course content with emerging technology trends
- Created hands-on laboratory exercises and capstone projects reflecting real-world scenarios

**KEY ACHIEVEMENTS**

---

- Enhanced application performance metrics by 30-40% through strategic optimization initiatives
- Successfully delivered end-to-end project lifecycles from initial conception through production deployment
- Maintained exceptional system reliability with 99.9% uptime across production environments
- Mentored over 100 junior developers resulting in successful career transitions to software industry
- Increased user engagement rates by 15-25% through algorithmic improvements and feature enhancements
- Led cross-functional teams in delivering complex enterprise solutions within strict deadlines

**EDUCATION & CERTIFICATIONS**

---

**Professional Certification in .NET Development**

**TOPS Technologies, Surat**

**2019**

Comprehensive certification program covering ASP.NET MVC, C#, JavaScript, SQL Server, and web development best practices

**Diploma in Engineering (Pursuing)**

**Mahavir Swami College of Engineering & Technology**

**2015 - 2019**

Focused on core engineering fundamentals and programming concepts
